

Security Room of the Girls'
Hostel

Ladies Toilet in the
Girls' Common Room

Referring to this year's International Women's Day theme "Press for Progress", WSRC, Rangia College has organized this programme on 08.03.2018 on the topic 'Women's Health and Hygiene' especially during menstruation. In order to make the girl students aware regarding this indispensable issue of a woman's life, the cell had invited Mrs. Aimoni Tumung and Ms. Jamini Baro from Parijat Academy, Guwahati. Parijat Academy takes initiatives to give shelter to many orphans and underprivileged children by giving them shelter and education. Moreover, some women like Jamuna Baro are engaged in making Sanitary napkins in a low cost so that by using the re-usable sanitary pads women and girls can lead a hygienic life during menstruation.

Another significant event of the day was the free "Health Check Up" of the girl students of Rangia College. It was an initiative of the city based "Excel Care Hospitals, Guwahati, where a large number of female students were benefitted.
